Kelsey-Seybold Clinic: Houston's Model for Coordinated Care Since 1949

*Dr. Mavis Kelsey
Founder*

Imagine an entire team of experts working together to care for you and those you love. That's what Dr. Mavis Kelsey dreamed of more than 60 years ago when he returned to his home state of Texas from a position at the prestigious Mayo Clinic. This fifth-generation Texan was convinced that Houston families needed the Mayo Clinic model of "collaborative care" – where physicians practice together and share information to provide the best for their patients. And that's what he set out to create when he founded Kelsey-Seybold Clinic in 1949.

*Dr. Spencer R. Berthelsen
Chairman
and Managing Director*

Today, Kelsey-Seybold Clinic has grown to become Houston's oldest and most renowned private multispecialty physician group. We bring together physicians in more than 50 specialties to collaborate on behalf of our patients who entrust their health care to us. We offer state-of-the-science care and are affiliated with quality hospitals in the local community and in the renowned Texas Medical Center. We believe that new technology can benefit our patients. We know that communication and trust are the basics that ground everything we do.

*Dr. James C. Hoyle, Jr.
Medical Director*

Kelsey-Seybold patients enjoy the special benefits that come from Dr. Kelsey's pioneering vision. With a long-standing history of caring for generations of Houstonians, it's no wonder that Kelsey-Seybold physicians really are *Your Doctors for Life*.
